WORKING EXPERIENCE

FULL STACK DEVELOPER

ZONES LLC | 2023 - Present

Zones helped me broaden my experience as a Full Stack Engineer, contributing to diverse projects for major US clients. This role allowed me to refine my technical skills and gain valuable exposure to large-scale, client-focused development. I thrived in the challenge of translating complex requirements into tangible, impactful solutions, finding deep satisfaction in creating meaningful technology that directly addressed client needs.

PROJECT MANAGER

Present

Building upon my experience as a Full Stack Engineer, I advanced into IT Project Management, where I now lead complex projects and cross-functional teams. My technical background provides a strong foundation for delivering client-focused solutions, ensuring projects are strategically planned, efficiently executed, and aligned with organizational goals.

FULL STACK DEVELOPER

STACKWISE TECHNOLOGIES | 2022 - 2023

Working as a MERN stack developer at Stackwise Technologies, I gained hands-on experience in React, Node.js, JavaScript, HTML5, CSS, and MongoDB. I have successfully delivered dynamic, user-centric web applications. At Stackwise, I developed valuable insights into project execution, team collaboration, and creating scalable, high-performance solutions that elevate digital experiences and drive innovation.

FREELANCER

Continually working as a freelancer since university, I've contributed to diverse projects, from building customized websites to developing software solutions. Recently, I collaborated on a job portal targeting part-time jobs, currently in deployment. This experience has kept my skills up-to-date and fueled my ongoing learning.
